Pairing a folio with an Apple iPad® is easy. It should only be a couple of times using the following directions. If the connection between iPad and Folio is ever lost, repeat these steps. 1. On your iPad select: SETTINGS, >T; BLUETOOTH®'s ON. 2. Tap and hold the Bluetooth button for three seconds. The blue powerkey LED will flash until your Folio and iPad are paired. 3. Your iPad will display the Folio ASG as an affordable device. Choose this option to complete the pairing. INSTRUCTIONS FOR PAIRING THE KEYBOARD ZAGG 1. On your device, select SETTINGS and BLUETOOTH 2. Slide the POWER ON button and press the Bluetooth 3 button on the MAG keyboard. The Status light will flash on the GGG keyboard, and your device will display the KEYBOARD of the AGG as an affordable device 4. Select the GG keyboard on device 5. The WAGG keyboard will now be paired with your device and display Connected on your iPad® KEYBOARD TROUBLESHOOTING A few things can cause devices not to be paired with the KEYBOARD of the AGG: Dead Battery Must reconnect the CAGG keyboard to your device Software Problem Problem 1. Make a hard reset on your device. Your fabrication of the device will have these instructions on its website 2. Turn off keyboard 3. Turn on the keyboard. You should see the slate light turn on for 4 seconds and then turn off. If not, charge the keyboard with the GG. 4. Turn on the device and go to THE SETTINGS and BLUETOOTH 5. Do you see the GG keyboard listed as Affordable Device on your device? If so, click on the arrow to the right and then decide to have the device Forget about this device. Tap the Bluetooth button on the KEYBOARD and watch the slate flash. You should see the AGG keyboard listed as an Affordable Device. Select the UGG keyboard by touching it on your device. Now the keyboard GG should be paired. If your device sends an error message, try again. If you still can't get the keyboard to pair, it's possible your device should have your software updated. The word Bluetooth and logos are registered trademarks belonging to Bluetooth SIG, Inc., and any use of such marks by the company Sugg Inc. is licensed. 1. Physically connect the keyboard to the device. Insert the iPad into the zagg. 2. Head to iPad settings. Look for an icon that resembles an outfit and click on it. It is usually located on the home screen. 3. Find Bluetooth option. In your settings, look for Bluetooth and click on it. This will lead you to the Bluetooth menu. 4. Turn on Bluetooth. There will be a switch button at the top of the screen. Place it in the ON position by clicking on it. The iPad will start searching for other Bluetooth devices. 1. Turn on the keyboard of zagg. Switch located in the top left or upper upper side of the device. 2. Connect the zagg keyboard to your iPad. Click connect on the zagg keyboard. This button is usually next to or next to the power switch. Your iPad will find the keyboard of zagg; Tap Touch The name of the keyboard is on the list of devices found on your iPad to connect. 3. Enter the code. The code will appear on the iPad screen. Use the keyboard to enter this code and hit Enter. Now you've connected the keyboard and iPad! Add a new question question My keyboard does not answer. What can I do? Disconnect the device from your computer. Turn off the power of the device if the device has a separate supply of power. Open the Device Manager. Double-click the keyboard, tap the right button on the keyboard you're using, press the delete button and then restart the computer. Why does the Connect button on my zagge keep flashing red despite being charged at night? You must have turned on the button unconsciously and left it like this for the night. A red flash doesn't mean it's dead, it means it's ready to connect to your iPad. What if iPad Air doesn't stay connected? If you're jailbreaking your iPad using Pangu, there are tweaks to solve your problem in the Cydia app, called Flex2. The question is what does the connection button look like? On my GG, it's a round button to the left of the button to turn off. Ask the question wikHow is a wiki similar to Wikipedia, which means that many of our articles are written by several authors. If your Apple iPad® does not respond to your folio may be a simple explanation such as dead battery or unsuccessful mating. Please use the following to help troubleshoot your situation. 2. Restart your iPad by holding the Home and Power button until ® apple logo appears on the screen. 3. Turn off the folio and back. You should see the LED light briefly, if not, charge the folio. 4. After charging, turn on the folio. If the LED is not illuminated and the keyboard is not working properly, please contact the company's customer service. 5. If your folio can't install or maintain a bluetooth® connection, reset the Bluetooth module by charging the keyboard. 6. Forget and reconnect your Folio. On iPad, select: SETTINGS, BLUETOOTH, ON. If you see the Folio OF the GG listed as an affordable device, tap the arrows to the right of it and choose to let your iPad forget the device. 7. Tap the Bluetooth button on the folio and look at the LED to flash blue. 8. Your iPad should display the Folio ASG as an affordable device. Pick it. If your iPad gives you an error message, the pairing process. The Bluetooth keyboard line of the company Sugg is a great innovation for the performance of tablets. From the Go-anywhere Rugged to the low-cost Messenger model, the zagg keyboards will help you dial and easy on your iPad. Given the history of zagg as a manufacturer of protective Czechs for portable devices, the keyboards are likely to be well built and durable. The old zagg models will connect directly, but the Bluetooth connection to the new versions makes their use easier than ever. First, however, you need to know how to connect the keyboard to the iPad. Here's how to do it. Check out the products mentioned in this article: iPad (from \$329.99 in Best Buy) zagg Rugged Model (for \$129.99 in Best Buy) zagg Messenger Folio Case (for \$39.54 at Walmart) How to connect the keyboard to the iPad1. Insert the iPad into the slot on the zagg keyboard, designed for the device's heyu. Make sure it presses securely on place. 2. Turn on the zagg keyboard by pressing the Turn/Off button on the side. The red light on the keyboard should light up to signal that it's on. If this is not the case, you should check to make sure that it has been charged. The next steps require you to turn on Bluetooth on your iPad. 3. Click Settings on your iPad 4. Scroll down and tap Bluetooth. 5. Tap the Bluetooth switch on your iPad to make it turn on (green). Now it can work in tandem with the keyboard. To make sure it is available to connect with the keyboard via Bluetooth, you should see that it is looking for other devices. 6. Tap the Pairing key on the keyboard of the zagg, next to the Turn off button. 7. The blue light on the side will flash until it is ready to pair. 8. The zagg keyboard must now appear on your Bluetooth list under Other Devices. Tap the keyboard in Bluetooth to connect it to your iPad. Ryan Ariano/Business Insider 9. Click on the device of zagga (in this case it's a folio of zagkis). Your keyboard will now be plugged in, although you should check it out to make sure the pairing has been successful. Your keyboard zagg must now be paired constantly with the iPad. However, if your iPad can't ever connect to the keyboard, just repeat these instructions.
